

Lightweight 60g Non Woven Fusible Interlining Fabric White

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China (Mainland)
- Brand Name: ZHONGQIANG
- Minimum Order Quantity: Negotiation
- Price: Negotiation
- Packaging Details: In rolls, Put each roll into plastic bag
- Delivery Time: 3-10 days
- Payment Terms: T/T
- Supply Ability: 200,000m monthly

Product Specification

- Product Name: Woven Interlining
- Adhesive: Hot-melt, Resin, Etc.
- Coating: PA, PU, PES, Etc.
- Color: White, Black, Grey, Etc.
- Function: Breathable, Waterproof, Etc.
- Hand Feel: Soft, Hard, Etc.
- Material: Polyester/Viscose
- Usage: Garment, Shoes, Bags, Etc.
- Weight: 50gsm-200gsm
- Width: 90cm-150cm
- Highlight: 60g non woven fusible interlining fabric,
non woven fusible interlining,
60g non woven interlining fabric

Product Description

Lightweight 60g fabric Fusible Woven Interlining White

Woven interlining refers to a type of fabric material that is used in the construction of garments and other textile products. It is often used as a layer between the main fabric and the lining to provide structure, stability, and reinforcement.

Parameter	Description
Material	The type of fiber used in the interlining (e.g., cotton, polyester)
Weight	The weight of the interlining fabric, measured in grams per square meter (gsm)
Construction	The weaving pattern or structure of the interlining fabric
Width	The width of the interlining fabric, usually measured in inches or centimeters
Color	The color or shade of the interlining fabric,
Fusibility	Indicates whether the interlining is fusible or non-fusible
Thickness	The thickness of the interlining fabric, often measured in millimeters
Stretchability	Describes the degree of stretch or elasticity of the interlining
Application	The recommended use or application of the interlining (e.g., collars, cuffs, waistbands)
Care Instructions	Guidelines for washing, ironing, or maintaining the interlining
