Product Description

Snap Closure Metal Cap Snap Buttons Round Shape Bronze/ Gun Black Electroplated White Pack of 1000

Product Description:

Introducing our premium collection of Metal Cap Snap Buttons, designed to cater to a wide array of applications, both in the fashion industry and beyond. Suitable for men, women, and children, these snap buttons are not only versatile but also embody ease of use and durability that cater to both professional tailors and DIY enthusiasts. Each pack contains a generous quantity of 1000 pieces, ensuring that you have an ample supply for all your projects and garment repairs.

Crafted from high-quality materials, our snap buttons are available in two robust options: copper and stainless steel. These materials are renowned for their strength and resistance to wear and tear, making them an ideal choice for garments and accessories that require frequent use and attachment. The copper snap buttons offer a classic look with a hint of vintage charm, while the stainless steel buttons provide a modern and sleek appearance, suitable for contemporary designs.

The application of these Metal Cap Snap Buttons is as easy as it gets. They are perfect for both sewing and pressing methods, which means they can be attached to your desired materials with minimal effort. Whether you are looking to add snap buttons to a new sewing project or replace old ones on existing clothing, these buttons will serve your needs with efficiency and ease. The simple press and release mechanism ensures a secure closure that can withstand repeated use without losing its grip.

One of the standout features of these snap buttons is their similarity to Elevator Push Button Switches in terms of functionality. Just as an elevator button enables a simple push action to operate, these snap buttons are designed with the same principle in mind. The ease with which one can fasten and unfasten them is akin to the effortless pressing of an Aluminum Push Button Switch. This intuitive use ensures that even children can manage their clothing independently, fostering a sense of self-reliance.

Durability is a key feature of these Metal Cap Snap Buttons, as they are built to last. Unlike traditional buttons that may wear out or fall off with time, these snap buttons are designed to endure the rigors of daily wear and frequent washing. The integrity of the snap mechanism remains intact over time, ensuring that your garments retain their functionality and appearance for the long haul.

Moreover, the aesthetic appeal of these snap buttons should not be understated. Their polished metallic finish adds a touch of elegance to any garment, making them an excellent choice for designers and clothiers looking to elevate their creations. Whether it's a rugged denim jacket, a sophisticated leather bag, or a playful children's outfit, these buttons will seamlessly blend in and enhance the overall design.

In addition to their use in clothing, these Metal Cap Snap Buttons can be creatively employed in various craft projects. They can serve as functional closures for wallets, clutches, or even as decorative elements in scrapbooking and other paper crafts. The potential applications are only limited by one's imagination.

To sum up, our Metal Cap Snap Buttons are a stellar choice for anyone in need of reliable, easy-to-use closures. Their resemblance in function to Elevator Push Button Switches makes them a fascinating and practical addition to any collection of fasteners. Whether you are a seasoned professional or just starting out with sewing and crafts, these buttons will provide you with the durability and ease of use you require. Choose from our selection of copper or stainless steel buttons and add a pack of 1000 to your sewing kit today!

Features:

Product Name: Metal Cap Snap Buttons

Size: 15mm

Type: Snap Buttons

Feature: Easy To Use

Feature: Durable

Quantity: 1000 Per Pack

Usage: Clothing, Bags, Accessories

Similar to Aluminum Push Button Switch in durability

Includes Heavy Duty Snap Rings for secure fastening

Applications:

The ZHONGQIANG brand, with its high-quality metal cap snap buttons, offers an array of applications and scenarios where their durability and ease of use are highly appreciated. These snap buttons, with model numbers 831/201/503, are crafted with precision in the heart of Zhejiang, China (Mainland), ensuring that each piece meets the highest standards of quality and reliability. Each snap button measures 15mm, an ideal size for a variety of uses, and is available in quantities of 1000 per pack, with packaging details indicating that they are securely placed in PE bags.

For those in the fashion industry, these snap buttons are perfect for creating or repairing clothing items. They can be used as secure closures for jackets, coats, and denim wear, providing a touch of elegance and a reliable seal. With a minimum order quantity open for negotiation, fashion designers and garment manufacturers can easily incorporate these durable snaps into their designs. Price is also subject to negotiation, ensuring that both small boutique creators and large-scale operations can find a suitable arrangement.

These snap buttons are not only limited to clothing but can also serve as practical components in the creation of elevator push button switches. Their sturdy copper or stainless steel construction guarantees that they can withstand the repetitive pressure from users. The delivery time for these buttons is between 3-10 days, ensuring that projects stay on schedule. Payment terms are convenient via T/T, and with a supply ability of 5000 packs monthly, even large orders can be accommodated with ease.

Additionally, the ZHONGQIANG metal cap snap buttons can be applied to accessories such as bags, wallets, and belts. Their easy-to-use feature and the option for sewing or pressing application make them a versatile choice for heavy-duty snap rings in outdoor gear or tactical equipment. The flip-top cap design allows for a secure yet easy-to-operate closure for containers or pouches, ensuring that belongings are safely stowed yet accessible when needed.

Whether it's for the robust demands of heavy-duty equipment, the delicate requirements of high-fashion garments, or the constant operation of elevator push button switches, ZHONGQIANG metal cap snap buttons stand out as a reliable choice. Their easy-to-use nature, paired with durable copper or stainless steel materials, ensures that these snap buttons can be used in a multitude of scenarios, fulfilling both functional and aesthetic needs in various industries.

Support and Services:

Our Metal Cap Snap Buttons are designed for durability and ease of use, providing a reliable fastening solution for a wide range of apparel and accessories. To ensure you receive the full benefits of our product, we offer comprehensive technical support and services. Our support includes guidance on the proper installation of snap buttons, troubleshooting assistance, advice on compatibility with different materials, and tips to maintain the quality and longevity of the product. Our team is dedicated to ensuring your complete satisfaction with the Metal Cap Snap Buttons and is available to assist with any questions or concerns you may have regarding their application and use.

Packing and Shipping:

Product Packaging: The Metal Cap Snap Buttons are securely packaged in a durable, clear plastic box to ensure they arrive in perfect condition. Each box contains a pre-counted set of snap buttons, with the metal caps and corresponding socket pieces separated into individual compartments to prevent any scratches or damage during transportation. The packaging is designed to be resealable, allowing for easy storage and reuse of any unused snap buttons.

Shipping: The packaged Metal Cap Snap Buttons are then placed into a sturdy cardboard box with ample cushioning material to prevent movement and protect against impacts during shipping. Each box is sealed with heavy-duty packing tape and labeled with the appropriate handling instructions to ensure the product reaches its destination safely. We use reliable shipping carriers to provide timely and trackable delivery service to our customers. Please inspect your package upon arrival and report any damage immediately to customer service.
